

## School of Management, Kristu Jayanti College organized International Exposure Programme

Every year School of Management, Kristu Jayanti College, Bengaluru organizes an International Industrial visit to an overseas location to expose the students to global environment. This year the School organized an International Industrial Visit to Singapore and Malaysia. Twenty-one students of MBA batch 2018-20 led by Prof. Stephen Deepak of School of Management visited various places in both the countries during this one-week trip. Students also visited various heritage and cultural sites of Malaysia, which are the heart of Malaysia's culture. They visited the Newater Purification plant, which is the major source of water for Singapore. Students were taken

through the process of purification and the various technologies involved in the process. The week-long trip was an enriching exposure to the international culture and business for the management students.
